Philip:

At the present, EPA is planning on finishing up on the RI/FS. The RP has a meeting with our Division Director around June 29 to discuss whether EPA is going to allow them to complete the RI/FS work. The RI/FS work is managed by the EPA RPM, Raphael Casanova. The Removal Action is being overseen by the EPA OSC which is me. How does TCEQ want to be incorporated into the org chart for the Removal Action and the RI/FS? Who would you like for me to coordinate with at the Corpus Christi Regional Office on our activities?

Thanks

Thanks Gary;

I reviewed your e-mail and monthly report. I really don't have any comments about TRC's proposal to move wastes/rainwater, however, I would appreciate either you or TRC contacting our TCEQ Region Office prior to on-site activities such as this. I was wondering if TRC was conducting the RI/FS or EPA. The monthly report didn't make that clear and also noticed the Org. Chart doesn't have any reference to the TCEQ.

Please keep me posted on activities conducted at the site, thanks.

Philip:

Please see the last update. I get reports on a monthly basis. I apologize that you have not been previously included on these updates. I will make sure that you get them when I receive them. Let me know if you have any questions.
